

Module-6

Q.1 What are events in Google analytics?

Ans:-

Definition

Event ek user interaction ya occurrence hai jo aapki website ya app par hota hai aur Google Analytics 4 (GA4) track karta hai.

GA4 mein sab kuch Event hai pageview bhi, click bhi, scroll bhi, purchase bhi. Pehle Universal Analytics (UA) mein pageviews alag the, goals alag the lekin GA4 mein sab ek hi format mein track hota hai: **Event**.

Event Structure

Event Name + Parameters (extra info)

Example:

event_name : "page_view"

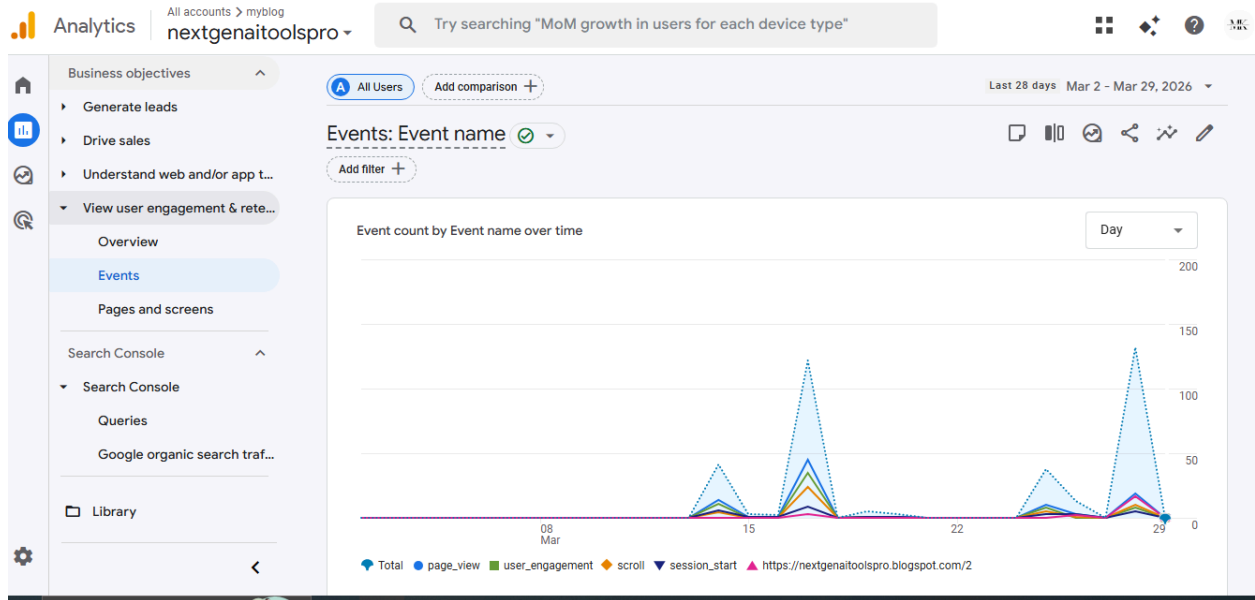

parameters : {

page_title : "Home Page",

page_location : "https://nextgenaitoolspro.blogspot.com",

page_referrer : "https://google.com"

}

Q.2 Connect your created website and blog to search console, analytics, and google tag manager and add your faculty as a user with required permission in it.

Ans:

Analytics

Create an Analytics account to collect and organise data. Accounts can access multiple data sources, using one or more measurement IDs.

Account details

Account name (Required)
Accounts can contain more than one measurement ID.

nextgenaitoolspro

Google Analytics is a business tool. Use it exclusively for purposes related to your trade, business, craft or profession.

Account Data Sharing Settings

Google processes your Google Analytics data only as required to [maintain and protect](#) the Google Analytics service, as set out in the [Google Ads Data Processing Terms](#). The data sharing settings below allow you to customise whether the data that you collect in Google Analytics may also be shared with Google for additional purposes.

The data sharing options give you more control over sharing your Google Analytics data. [Learn more](#)

☐ Google products and services
Share your Google Analytics data with Google to help improve Google's products and services. Turning on this setting enables Google to better

☒ **Modelling contributions & business insights**

Enable features like predictions, modelled data and benchmarking that can provide you with richer business insights when you contribute aggregated measurement data. The data that you share (including information about the property from which it is shared) is aggregated and de-identified before being used to generate business insights. [Show Example](#)

☒ **Technical support**

Let Google technical support representatives access your Google Analytics data and account when necessary to provide service and find solutions to technical issues.

☒ **Recommendations for your business**

Give Google access to your Google Analytics account data, including account usage and configuration data, product spending and users associated with your Google Analytics account, so that Google can help you make the most of Google products, providing you with insights, offers, recommendations and optimisation tips across Google Analytics and other Google products for business.

Learn how Google Analytics [safeguards your data](#).

By using Google Analytics you agree to the [Google Analytics Terms of Service](#).

[Next](#)

To measure your web and app data, create a Google Analytics 4 property. Each property that you create holds all your measurement data for any selection of websites and apps that you choose.

Set up a Google tag

Test installation

Choose how to set up a Google tag

Install manually

RECOMMENDED

Below is the Google tag for this account. Copy and paste it in the code of every page of your website, immediately after the <head> element. Don't add more than one Google tag to each page.

```
<!-- Google tag (gtag.js) -->
<script async src="https://www.googletagmanager.com/gtag/js?id=G-7N0XPC5VMF"></script>
<script>
  window.dataLayer = window.dataLayer || [];
  function gtag(){dataLayer.push(arguments);}
  gtag('js', new Date());

  gtag('config', 'G-7N0XPC5VMF');
</script>
```

Use Google Tag Manager

For additional features including multiple tag management and enterprise workflows, install and manage with Google Tag Manager. [Learn more about Google Tag Manager](#)

Q.3 Submit the sitemap and robot.txt file in the search console for your website.

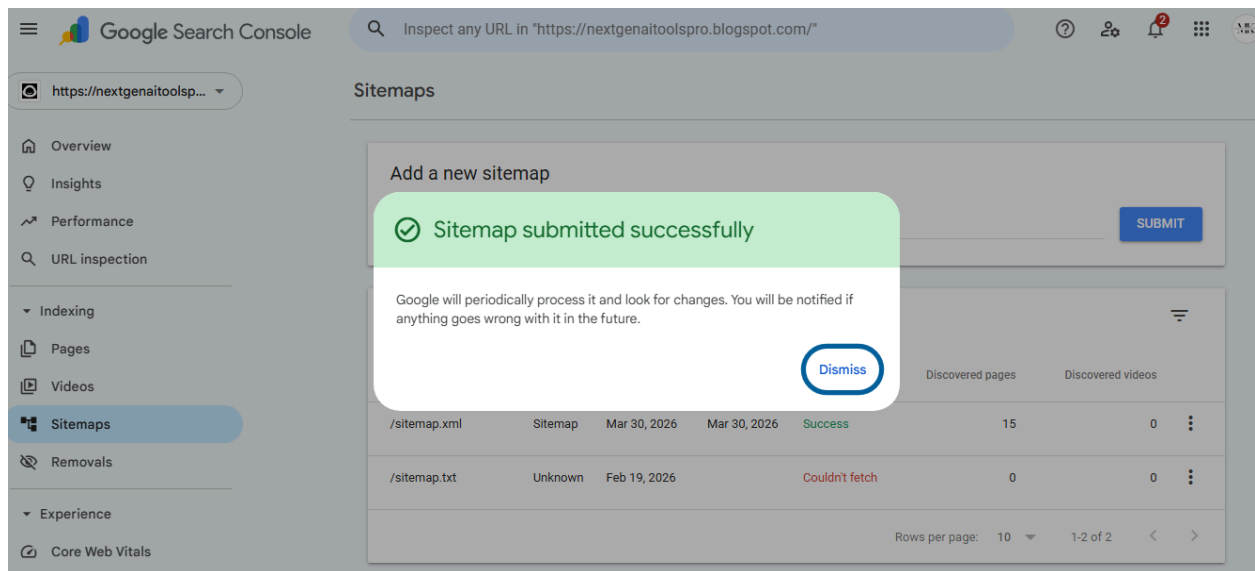

Ans:

The screenshot shows the Google Search Console interface for the URL `https://nextgenaitoolspro.blogspot.com/`. The left sidebar contains navigation links: Overview, Insights, Performance, URL inspection, Indexing, Pages, Videos, Sitemaps (highlighted), Removals, Experience, and Core Web Vitals. The main content area is titled 'Sitemaps' and features a form to 'Add a new sitemap' with the URL `https://nextgenaitoolspro.blogspot.com/sitemap.xml` and a 'SUBMIT' button. Below this is a table of 'Submitted sitemaps'.

Sitemap	Type	Submitted ↓	Last read	Status	Discovered pages	Discovered videos
/sitemap.xml	Sitemap	Mar 30, 2026	Mar 30, 2026	Success	15	0
/sitemap.txt	Unknown	Feb 19, 2026		Couldn't fetch	0	0

At the bottom of the table, it indicates 'Rows per page: 10' and '1-2 of 2'.

This screenshot shows the same Google Search Console interface, but with a green success message overlay: 'Sitemap submitted successfully'. The message states: 'Google will periodically process it and look for changes. You will be notified if anything goes wrong with it in the future.' and includes a 'Dismiss' button. The 'Add a new sitemap' form and the 'Submitted sitemaps' table are visible in the background, with the table data matching the previous screenshot.
